

A screenshot of the Visual Studio Explorer sidebar. The sidebar is dark-themed. On the left, there is a vertical toolbar with icons for Explorer (selected), Search, Source Control, Run and Debug, Extensions, Test Explorer, and Python. The main area of the sidebar shows a file tree. The root is 'Untitled (Workspace)'. It has a sub-item 'c language' which is expanded to show '.vscode' and 'C language'. Under 'C language', there is a file 'ASSIGNMENT_1.c' which is selected and highlighted. Below it are 'ASSIGNMENT_1.e...', 'CodeForces.c', 'CodeForces.exe', 'Demo.c', 'Demo.exe', and 'First Lab.c'. Below the file list is a section titled 'Outline'. Below that is a section titled 'Timeline' with a sub-item 'ASSIGNMENT...'. A message is displayed below the 'Timeline' section: 'All timeline sources have been filtered out. Source Control has not been configured.'

Firstprogramme.py • Demo.c • **ASSIGNMENT_1.c** × CodeForces.c • ASSIGNMENT_1.exe × First Lab.c × Apna Colleg ▾ ⚙️ □ ...

```
c language > C ASSIGNMENT_1.c > main()
184 // printf("Your cut of marks is %2f", cm);
185
186
187 // 11. PROGRAM TO READ TOTAL SECOND AND CONVERT IT INTO TIME.
188 int total_seconds;
189 int hours, minutes, seconds;
190 printf("Enter total seconds: ");
191 scanf("%d", &total_seconds);
192 hours = total_seconds/3600 ;
193 minutes = (total_seconds%3600)/60;
194 seconds = total_seconds % 60;
195 printf("%d hours, %d minutes, %d seconds\n", hours, minutes, seconds);
196
197
198 // 12. PROGRAM TO PRINT ASCII CODE OF ANY CHARACTER.
```

Output Debug Console **Terminal** Ports

```
PS C:\TURBOC3\Projects\c language\C language> cd "c:\TURBOC3\Projects\c language\C language\" ; if ($?) { gcc ASSIGNMENT_1.c -o ASSIGNMENT_1 } ; if ($?) { .\ASSIGNMENT_1 }
Enter total seconds: 12457
3 hours, 27 minutes, 37 seconds
PS C:\TURBOC3\Projects\c language\C language>
```
